Position

Junior Website Developer (Freelancer)

Date

May 24, 2025

1. Company Overview

I am Hilari Gebremedhin, a junior freelance web developer with experience building modern, responsive, and dynamic websites. I specialize in creating professional web platforms for startups, financial services, and crowdfunding platforms using the latest web technologies.

2. Relevant Experience & Portfolio

- Demo Website for Hamlin Capital: https://hilarygh.github.io/landing-page-demo/

- Portfolio: https://snazzy-biscochitos-f46d2b.netlify.app/

- Developed various small-scale projects showcasing responsive design, form handling, and interactivity.

3. Technical Approach & Tools

- Frontend: HTML5, CSS3, JavaScript (Vanilla or React based on requirement)

- Backend (if needed): Node.js or Firebase

- Security: HTTPS, input validation, reCAPTCHA

- Hosting: GitHub Pages, Netlify or any preferred service

4. Mobile Responsiveness & UX

I ensure all designs are fully responsive and optimized for both mobile and desktop users with clean UI/UX principles.

5. Security & Data Protection

The website will be secured with HTTPS, use encrypted forms and comply with data protection best practices.

6. Project Timeline & Milestones

Total Duration: 28 Days

Week 1: Design & Planning

Week 2: Development of Hamlin Capital Website

Week 3: Development of Hamlin Crowdfunding Website

Week 4: Testing, Feedback Integration, and Deployment

7. Budget

Net Total: 46,000 ETB (includes development, testing, and deployment)

8. Post-launch Support

Includes 1-month free maintenance and training sessions for managing the website.
